trademark of De Sangosse Ltd.

FOAM-FIGHTER – Risk and Safety information.

UK - only

**FOR USE WITH
AGRICULTURAL/HORTICULTURAL/FORESTRY
SPRAYS**

The (COSHH) Control of Substances Hazardous to Health Regulations may apply to the use of this product at work.

OPERATOR PROTECTION: Operators must follow all operator protection instructions for the pesticide. Where the personal protective equipment specified on this label is different to that specified on the pesticide label, the highest level of protective equipment must be worn.

If tank mixing with a pesticide follow all the operator instructions for the pesticide.

Ireland - only

Read the label before use. Using this product in a manner that is inconsistent with the label may be an offence. **Follow the code of practice for using plant protection products.**

To avoid risk to man and the environment, comply with the instructions for use.

SAFETY INSTRUCTIONS

ENVIRONMENTAL PROTECTION: Do not contaminate surface waters or ditches with chemical or used container.

STORAGE AND DISPOSAL

Keep out of reach of children
Wash out container thoroughly, empty washings into the spraytank and dispose of safely.

PCS No 92398.

RATE OF USE

Will vary according to extent of the foam problem and also whether it is being used in an anti-foam or defoaming situation. Generally the rate will be in the range of 10-45 ml per 200 litres solution with softer water presenting a greater foam risk.

MIXING INSTRUCTIONS

Use as an Anti-foam

Always add **Foam-Fighter** to the spray tank before a pesticide is added as it will prevent the build up of foam.

Use for Defoaming

If foaming is already a problem in the tank add **Foam-Fighter** with agitation and the foam will be quickly quelled. The amount used will vary according to volume of solution, propensity of the tank components to foam, water type and agitation type/sprayer design.

NUMBER OF APPLICATIONS

Some pesticide labels specify the need of an anti-foam. Use as directed on that particular label.

In other situations **Foam-Fighter** may be used as often as required for the situation.

COMPATIBILITIES

Foam-Fighter is compatible with all approved pesticide and fertilizer formulations.

CONDITIONS OF SUPPLY

All goods supplied by us are of high grade and we believe them to be suitable, but as we cannot exercise control over their storage, mixing or use, all conditions and warranties, statutory or otherwise as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us for any damage or injury whatsoever arising from their storage, handling, application or use.
